RAHUL CHANDRAKANT BANDGAR

Quality Assurance Specialist

Mumbai, India
9920642747
rahulbandgar68@gmail.com

PROFESSIONAL SUMMARY:

Experienced Software Tester / QA Specialist with 8.4+ years of experience in the Capital Market domain. Strong expertise in RMS, OMS, API testing, Web Services, and Trading Platforms across Equity, Derivatives, and Commodity markets. Proven ability in client support, production issue analysis, functional testing, and documentation, with hands-on experience in both manual and automation testing.

PROFESSIONAL EXPERIENCE:

Quality Assurance Specialist

Rupeeseed Technology Ventures Pvt. Ltd.
Nov 2023 – Present

- Provided RMS demos to new clients, explaining risk management controls, margin monitoring, exposure limits, and system workflows to ensure smooth onboarding.
- Resolved client queries and verified production issues, performing root-cause analysis and coordinating with development teams for timely resolution.
- Tested RMS, OMS, and Web Services across Admin, Dealer, Mobile, and Web applications using Postman and SQL.
- Developed functional documentation, including business requirements, workflows, use cases, and system behavior to support development and QA activities.

Software Tester

5paisa Capital Ltd.
Aug 2021 – Nov 2023

- Performed API testing using Postman and API load testing using JMeter.
- Implemented API automation using Rest Assured, TestNG, and Java in Eclipse IDE.
- Validated margin calculations for Equity, Derivatives, and Commodity exchanges.
- Tested all order types including Regular, Stop Loss, VTT, Bracket, and Cover Orders.
- Worked on multiple projects such as RMS, Exchange Connector, Auth APIs, REST & Web Services, and Open APIs.

- Created **test cases and test scenarios** and coordinated with business users to understand requirements.

Product Implementation Engineer

BP Equities Private Ltd.
Mar 2021 – Aug 2021

- Tested applications including Manager, Admin, Dealer, Client, Web, and Mobile platforms.
- Implemented API integrations with Back Office, NSE, BSE, and ODIN.
- Implemented Payment Gateway functionality for fund transfers.
- Participated in Exchange Mock Sessions.
- Managed UAT to Production deployments after successful validation.
- Coordinated with vendors to resolve client queries and implementation issues.

Software Support Engineer

63moons Technologies Ltd.
Aug 2017 – Feb 2021

- Installed and configured Manager, Admin, Dealer, Client, Web, and Mobile applications on UAT servers.
- Tested login, order placement, and margin calculation functionalities before production deployment.
- Handled client queries via calls and emails.
- Resolved daily production issues including exchange login, margin, broadcast, data, and mobile/web login issues.
- Coordinated with development teams for issue resolution.
- Performed configuration, implementation, and troubleshooting across desktop, web, and mobile platforms.
